From now until April 2019, three library systems, covering 10 counties, will try to reach the moon – 238,900 miles away – by having patrons log their exercise. The Upper Hudson Library System (that’s us!), the Mohawk Valley Library System, and the Southern Adirondack Library System have joined together to promote this program on health and wellness. Visit the Library Moon Walk website [https://library-moonwalk.sals.edu/] to log your steps, miles, or minutes of exercise and your zip code. Let’s do it Guilderland! (Don’t worry - This site does not collect any personally identifiable info.)

Click on the moon and you will be taken to a shared calendar of health programs at GPL and other area libraries. Click on the Earth and be taken to Medline Plus, the National Library of Medicine’s reliable health information source that is authoritative and free to use.

Log your exercise, even if it’s only a few minutes. Let’s see how far we can go together.

For programs that are part of the Moonwalk, look for the “Stars” throughout the newsletter.

All-Ages 2019 Winter Reading Challenge
January 1-31
Can we read 2,000 books during the month of January? Last year we blew our goal of 300 books out of the water by reading 1,577! Let’s read even more this year. If we help reach the nationwide goal of 75,000 books, Shark Tank investor Mark Cuban will donate $35,000 to literacy programs at the top performing libraries – so let’s aim to be one. Register online today at [guilderlandlibrary.beanstack.org]. Every book we log during the month of January counts toward the goal.
